The way we WORK

A student is seated in a flight simulator cockpit, viewed from the side. He is wearing a tan flight suit with a US flag patch on the sleeve. He is interacting with a control panel featuring several analog gauges and digital displays. In front of him are three large monitors. The leftmost monitor shows a flight management interface with various data fields and aircraft icons. The middle monitor displays a 3D terrain visualization of a mountainous landscape. The rightmost monitor shows a standard Windows desktop with various application icons. The background is dark, suggesting an indoor simulation environment.

The way we PLAY

The image shows a multi-level indoor recreation center. On the left, a tall, textured rock climbing wall extends from the ground floor to the upper levels, with several people climbing. To the right, a wide staircase with metal railings leads up to a mezzanine level where more people are visible. The floor is decorated with large, colorful abstract patterns in shades of orange, blue, and grey. The ceiling is high with exposed wooden beams and recessed lighting. Large glass windows on the left side provide a view of the exterior.

Middle 50%

With ACT 22-28 or
SAT 1080-1270

Calculate your RAI score

- 2 x ACT composite score
- + high school percentile rank
- + 20 x high school GPA on a 4.0 scale
- + 5 x core courses completed in high school

= **Regent Admission Index (RAI) Score**

If your school does not rank, the admission decision is based on your GPA, ACT/SAT scores, and high school courses. Engineering requires ACT math score 25 or higher or SAT math score 620 or higher.

Who we admit

245

Minimum RAI score
for **Iowa residents**

255

Minimum RAI score
for **nonresidents**
